

# A MIX OF CONTEMPORARY AESTHETICS AND TIMELESS ELEGANCE

Glam Surface offers authentic and refined surfaces created by depositing porcelain stoneware flakes on the material. This technique produces a tangible and three-dimensional effect. The product comes in five colors: White, Nero, Crema, Choco, Charcoal, and Barly. It has a thickness of 15mm and two surface options: Gress Matt and Extra Gloss.

A NEW DIMENSION TO YOUR SPACE.

Glam Surface is a contemporary and sustainable product that combines Earth and technology. It is a full-bodied technical material created by blending small fragments and pigments of different colors. The series offers six essential hues that harmonize with natural elements, providing easily matchable tones.

The collection is divided into two aesthetic families: Ground, with a neutral color palette, and Flakes, with six intense colors. The product's potential uses are further enhanced by the availability of new finishes, Comfort and Glossy Bright.
